ELSEVIER

European Journal of Operational Research 98 (1997) 637–638

EUROPEAN JOURNAL OF OPERATIONAL RESEARCH

Contents Volume 98

1 Strategic production–distribution models: A critical review with emphasis on global supply chain models (Invited Review)
C.J. Vidal and M. Goetschalckx

19 Choosing a solid waste management system using multicriteria decision analysis
J. Hokkanen and P. Salminen

37 The attrition of volunteers
M.G. Dekimpe and Z. Degraeve

52 Coordinated condition-based repair strategies for components of a multi-component maintenance system with discounts
D.J.D. Wijnmalen and J.A.M. Hontelez

64 Choice of the best time scale for preventive maintenance in heterogeneous environments
I. Gertsbakh and Kh.B. Kordonsky

75 Optimal replacement policies with minimal repair and age-dependent costs
M. Chen and R.M. Feldman

85 Capturing decision maker preference: Experimental comparison of decision analysis and MCDM techniques
J.L. Corner and J.T. Buchanan

98 A general model for deriving preference structures from data
J. Montero, J. Tejada and C. Cutello

111 Tools for interactive multiattribute decisionmaking with incompletely identified information
K.S. Park and S.H. Kim

124 Multi-objective optimization over convex disjunctive feasible sets using reference points
B.S. Metev and I.T. Yordanova-Markova

138 Optimal transfer pricing schemes for work averse division managers with private information
S.-H. Li and K.R. Balachandran

154 Scheduling about a common due date with job-dependent asymmetric earliness and tardiness penalties
X. Cai, V.Y.S. Lum and J.M.T. Chan

Feature Issue: New Approaches for Analyzing and Evaluating the Performance of Financial Institutions

169 In Memoriam Russell G. Thompson

170 Preface
A.N. Berger, P.L. Brockett, W.W. Cooper and J.T. Pastor

175 Efficiency of financial institutions: International survey and directions for future research
A.N. Berger and D.B. Humphrey

213 DEA/AR profit ratios and sensitivity of 100 large U.S. banks
R.G. Thompson, E.J. Brinkmann, P.S. Dharmapala, M.D. Gonzalez-Lima and R.M. Thrall

230 Measuring efficiency at U.S. banks: Accounting for heterogeneity is important
L.J. Mester

243 A diagnostic test for the distribution-free efficiency estimator: An example using U.S. commercial bank data
R. DeYoung

250 Data transformations in DEA cone ratio envelopment approaches for monitoring bank performances
P.L. Brockett, A. Charnes, W.W. Cooper, Z.M. Huang and D.B. Sun

269 Best practice analysis of bank branches: An application of DEA in a large Canadian bank
C. Schaffnit, D. Rosen and J.C. Paradi

290 Target setting: An application to a bank branch network
C.A.K. Lovell and J.T. Pastor
300 Service quality and operating efficiency synergies for management control in the provision of financial services: Evidence from Greek bank branches
A.D. Athanassopoulos
314 Estimating input-specific technical inefficiency: The case of the Tunisian banking industry
M.E. Chaffai
332 The impact of liberalization on the productive efficiency of Indian commercial banks
A. Bhattacharyya, C.A.K. Lovell and P. Sahay
346 DEA/AR efficiency and profitability of Mexican banks. A total income model
W.M. Taylor, R.G. Thompson, R.M. Thrall and P.S. Dharmapala
364 The sources of productivity change in Spanish banking
E. Grifell-Tatjé and C.A.K. Lovell
381 Profit efficiency for Spanish savings banks
A. Lozano Vivas
395 Efficiency analysis in banking firms: An international comparison
J.M. Pastor, F. Pérez and J. Quesada
408 Efficiency of mutual funds and portfolio performance measurement: A non-parametric approach
B.P.S. Murthi, Y.K. Choi and P. Desai
419 N.E.W.S.: A model for the evaluation of non-life insurance companies
B. Kramer
431 Goal programming models and their duality relations for use in evaluating security portfolio and regression relations
W.W. Cooper, V. Lelas and T. Sueyoshi

445 Locational optimization problems solved through Voronoi diagrams (Invited Review)
A. Okabe and A. Suzuki
457 The assembly of printed circuit boards: A case with multiple machines and multiple board types
Y. Crama, O.E. Flippo, J. van de Klundert and F.C.R. Spieksma
473 Scheduling staff using mixed integer programming
N. Beaumont
485 Routing trains through railway stations: complexity issues
L.G. Kroon, H.E. Romeijn and P.J. Zwaneveld
499 Vehicle routing with a sparse feasibility graph
J.E. Beasley and N. Christofides
512 Combination of local search and CLP in the vehicle-fleet scheduling problem
J. Psarras, E. Stefanitsis and N. Christodoulou
522 Dynamic control of multicommodity fleet management problems
W.B. Powell and T.A. Carvalho
542 Formulating dynamic strategies using decision calculus
P.M. Parker and M. Sarvary
555 Applying Bayesian methodology with a uniform prior to the single period inventory model
R.M. Hill
563 L_p-metric sensitivity analysis for single and multi-attribute decision analysis
J.L. Ringuest
571 On redundancy in multi criteria decision making
P.J. Agrell
587 A new PCCA method: IDRA
S. Greco
602 Multiple criteria modelling and ordinal data: Evaluation in terms of subsets of criteria
W.D. Cook, J. Doyle, R. Green and M. Kress
610 Special cases of the tolerance approach in multiobjective linear programming
A.M. Mármol and J. Puerto
617 The core of a further m-sided assignment game
E. Marchi and J.A. Oviedo
626 Reducing the number of linear programs needed for solving the nucleolus problem of n-person game theory
B. Fromen
